

A Child is Born

Finished size 52" x 52"

Celebrate the first Christmas with Mary, Joseph, and the Christ child in a lowly stable in Bethlehem. Shepherds, wisemen, and glorious angels on high marvel at the signs and sight of His birth.

Sewing Supply List

50wt. Cotton Thread matching the fabric for piecing

Basic sewing kit including scissors, pins, rotary cutter & mat, long straight ruler, etc.

20 ½" Square Ruler by Creative Grids for accurate marking & trimming

Cutting Instructions & Fabric Preparation:

Please read all these instructions before starting the fabric prep and cutting instructions.

Cutting the Blocks:

Cut (3) 30" squares

Cut (2) 18" x 60" rectangles

Background Fabric: Saturate the background fabric in Terial Magic.

This product is a heavy starch.

The fabric must be very stiff to avoid stretching during embroidery.

Let the fabric air damp dry then iron the fabric flat and smooth.

Interfacing: Shape Flex 101 by Pellon or Fusible Woven by OESD

Iron interfacing to the back of all 3 blocks. Piece the interfacing to get the size needed. Over lap the pieced sections by 1/2"-1". The interfacing may be up to 2" smaller than the fabric blocks. It will shrink when you iron!

Lightly spray with water to activate the adhesive. Smooth the interfacing with your hands (this will help to displace the air between the interfacing & fabric).

Start pressing in the center and work out slowly. Iron the interfacing to the fabric.

All edges should be sealed together. If you see air bubbles, spray with water and iron again. Watch my Fabric Prep video for a demo.

READ first how to do this:

Use a 20 1/2" ruler to mark the first lines. This will give you an accurate crosshair. **Fold the fabric in half both ways** and crease the fabric in the center. Open the fabric and lay it flat on a surface. Place the upper right corner of the 20 1/2" ruler in the center of the block on the creases. Use the outside top & right edge of the ruler to mark the perpendicular lines. Mark the top and right side edges of the ruler. It will form an "L" shape. Extend those lines across the width and length of the fabric to form the center crosshair that is at a 90° angle.

Marking Corner Blocks (30" squares)

Mark on the front side of the fabric (use removable pen)

(1) **horizontal & (1) vertical line** centered on the full width and length

(2) **vertical lines** (full height of the block) 8" from the **center**

(2) **horizontal lines** (full width of the block) 8" from the **center**

The lines must be **parallel & perpendicular** to each other.

Center Nativity Block: Turn the block on point. See example.

Draw a center crosshair the full width and length. Draw additional lines 5" above and below the horizontal center line and 5" to the left and right of the center vertical line. Lines must be **perpendicular (90°)** to each other.

Use the outside top & right edges of a 20 1/2" square ruler to draw the first lines of the center crosshair. The 45° mark on the ruler is aligned with the diagonal edge of the block. Do not draw corner to corner and assume the lines will be perpendicular to each other.

Write **Top & name** on each fabric block. See example for placement.

Fabric preparation for the 30" square blocks is complete.
